

# Step by step instructions: EASY!!

March 2020

Wash out the bottle first!

Cut the base off **carefully**.

Cut up the **middle** of the flat side of the bottle (Opposite the handle).

Just before you reach the curved top **cut a V shape** that makes the birds head. Cut around to either side of the lid of the bottle in a curve to complete this shape.

The tricky bit!

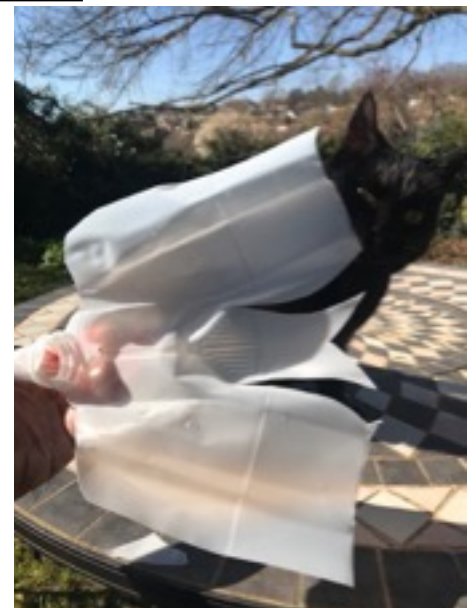

Fold the v shape **UNDER and UP** through the spout and pull it tight to create the birds head! Ace!

Open up the bottle along the first cut and **bend the sides back**. You can start to see the bird taking shape!

Bottom view with curious Chica cat!

Cut along the middle section and half way up to **create a tail** for the bird and the wings will start to
