

Message Birds

Spread some joy to your neighbours!

You can make these easily with just a clean plastic milk bottle and a pair of scissors.

Work with an adult as scissors can be sharp!

Decorate with marker pens, biro or posca pens with a message or leave them pure white if you like. A flock of birds can be added to every time you finish your milk.

Once you have made one with your adult, you will be able to make more and more!! Who else could you leave one for?
