

# Happy Hands

April 2020

## Rainbow hands to say thank you!

Many of you might be decorating your windows with cheerful rainbows.

You might even have joined in on Thursday at 8pm to applaud our NHS and Key Workers in our community.

**Can you find a window to display them and**

**make your neighbours smile? What message could you put in the middle? You can make more to pop in the post to a friend or family. You can fold them over to make a card.**

If you don't have you don't have any paint then you can colour them in with pens, colouring pencils, collage, tissue or even just in biro full of pattern!

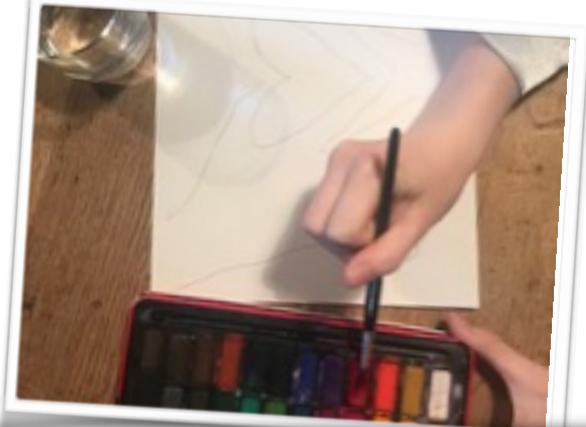

You can also use a cereal box or cardboard if you don't have paper.

**BE CREATIVE!**

1. Draw around your hands or ask someone else too. Make a heart shape in the middle!

2. Paint or colour in. Don't worry too much about the edges as you will cut them out. Add extra patterns to make them more funky!

3. Get an adult to cut them out if you need....we left the middle heart flapping so we could add a message but you could cut it out completely. Display it in a window for all to see!

**Seaford Young Artists with Art Teacher Emma Taylor**
